## TIME BOMBS

If you use a lot of steam in blowinga whistle don't have as much to turn the wheels

If we plant character in our home, it wil blosse m in the nation

When it comes to pattern for a new world, we have to live it before we can give it

We would not have so many things upon our minds, if we had more people on our hearts

Men, in difficulty, look for a plan. God always seems to look for a man

"You may be in the right, and I in the wrong," said Oliver Cromwell, but if we be devided ... we shall both be in the wrong "

Bitterness is an admission of defeat.

# Invest In Victory

CANADA'S SEVENTH VICTORY LOAN, with its minimum objective of \$1,300,000,000, comes at a time when there is every reason to believe that the most critical period of the war is well in the past. After five years of wartime searchies and restrictions it is natural that the people sixvide be anxious to return to normal conditions as quickly as possible, and that there should be some surprise that such a large loan is necessary at this time. In announcing the new Lean Campaign, the Minister of Finance, Fion. J. L. Ilsiey, went into this matter in detail, pointing out many reasons why Camadians are asked to continue to lend and save not only in the interest of victory, but also to ensure economic stability for this country now, and in the critical period which will follow the final defeat of Germany and Japan.

recent months. It is well known that Canada is committed to full participation in the struggle against Japan, and there is as yet no indication that the war in the Pacific will be specifly concluded. In addition, Canada is contributing extensively to the work of the United Nations' Relief and Rehabilitation Administration. There are also far-reaching plans for social security measures within the Dominion during the post-war period. It is clear that all these undertakings will call for the expenditure of large sums of money, for patriotic lending on the part of the people here.

One way in which this co-operation will be required for some time to come. One way in which this co-operation can be manifested, is in whote-hearted support of the Seventh Victory Loan. The first six loans were generously over-subscribed, and in giving a similar response to the Seventh Loan campaign the people of Canada will be investing in victory, both on the battle-fields and on the home front. paign the people of Canada v fields and on the home front.
